

Take the Low T (Low Testosterone) Quiz

Could You Have Low T?

Are you a man who may benefit from the Treatment of Low T?

Take the quick quiz to find out if you should talk to your doctor about Low T.

- | | Yes | No |
|--|-----------------------|-----------------------|
| 1. Do you have a decrease in libido (sex drive)? | <input type="radio"/> | <input type="radio"/> |
| 2. Do you have a lack of energy? | <input type="radio"/> | <input type="radio"/> |
| 3. Do you have a decrease in strength and/or endurance? | <input type="radio"/> | <input type="radio"/> |
| 4. Have you lost height? | <input type="radio"/> | <input type="radio"/> |
| 5. Have you noticed a decreased "enjoyment of life"? | <input type="radio"/> | <input type="radio"/> |
| 6. Are you sad and/or grumpy? | <input type="radio"/> | <input type="radio"/> |
| 7. Are your erections less strong? | <input type="radio"/> | <input type="radio"/> |
| 8. Have you noticed a recent deterioration in your ability to play sports? | <input type="radio"/> | <input type="radio"/> |
| 9. Are you falling asleep after dinner? | <input type="radio"/> | <input type="radio"/> |
| 10. Has there been a recent deterioration in your work performance? | <input type="radio"/> | <input type="radio"/> |

If you answered "yes" to questions 1 or 7 or at least three of the other questions, your symptoms may be caused by Low T.

Discuss the results of this quiz with your doctor, and ask about a Testosterone Test. Your doctor can determine your testosterone levels with a standard blood test, just like the doctor tests for other medical conditions. To confirm if you have Low T, your doctor may conduct a second blood test.
